

Supplier declaration regarding reusable masks

This declaration relates to a mask that is not personal protective equipment or medical equipment. This mask is not subject of any relevant European Union legislation except the general rules related to general product safety and chemical substances in products in general.

The masks in question are known as:

* Community face coverings

Hereby declare that the following products:

Hereby declare that the following products:

Product name: Model 2 - Viena

Item number: 12467

Picture of product

Are designed and manufactured in conformity with: CEN Workshop Agreement: CWA 17553 of June 2020: Community face coverings - Guide to minimum requirements, methods of testing and use

More specifically, we guarantee that:

* We have filed all documentation related to the testing, design and production of the products and that we are able and willing to forward that documentation to customers who need it. Documentation

means test reports, inspection reports, reports related to purchasing of materials as well as documentation related to traceability (link from material reports to the actual production)

- * We have carried out a visual inspection of the product and that we have found no visible defects.
- * The dimension/sizing is in accordance with Clause 5.3.1 for adults and 5.3.2 for children
- * All materials are validated as regards biocompatibility features and that the materials used are not known to cause irritation, allergenic effects or other toxic effects. Thus, we can document all dyes, colorants and the like by way of material safety data sheets that we are willing to forward followed by a total bill of materials.
- * The products have been tested for 25 cleaning cycles with a minimum washing temperature of 60 ° C.
- * The cleaning instructions provided by us are in accordance with the testing results.
- * The testing of cleaning was performed in accordance with EN ISO 6330.
- * The filtration efficiency of the material used for the product has been tested for particles around 3(+/- 0,5)µm.
- * That the testing of filtration efficiency has concluded that the material has a filtration efficiency minimum of 80%
- * The head harness has been tested for 5 cycles of being put on and removing using at least three test subjects with different morphologies.
- * The testing of the head harness was performed in accordance with clause 6.2 and 6.3
- * The product has been tested to document breathing resistance and air permeability in accordance with clause 6.5 using the following methods:

- EN 14683:2019 + EN ISO 9237:1995

Marking

- * The products are marked using the official language of the relevant country. The marking contains the following information:
 - The producer name, trademark or other means of identification
 - The postal or web address at which the producer can be contacted
 - A means of product identification ie. A batch number
 - The designation "Community face coverings CWA" followed by the version of the document

- The filtration efficiency level 80%” for filtration efficiency to particles around to 3 (+/- 0,5))µm
- The filtration efficiency test method used i.e. standard or national test method identification reference
- The type of community face coverings i.e. ”reusable” or ”disposable”
- The type of users i.e. ”child” or ”adult”
- The age appropriate restriction warning i.e. ” Not suitable for children under 3 years of age”
- The storage conditions.

Instructions for use

Furthermore, the producer provides instructions for use containing the following information

- The cleaning instruction (washing and drying)
- The maximum number of cleaning cycles for which the product is guaranteed to be compliant
- **WARNING:** In order to use this community face covering correctly, it is important that you follow these instructions.
- **WARNING:** If you are ill, this community face covering is unsuitable. Seek advice from your doctor.
- **WARNING:** This community face covering is not a medical device within the meaning of Directive 93/42/CEE or Regulation EU/2017/745 (surgical masks) nor is it personal protective equipment in the sense of Regulation EU/2016/425 (respiratory protective devices).
- **WARNING:** Always check that the community face covering is correctly fitted and covers your nose, mouth and chin. It is recommended that this community face covering be worn on bare skin; beards can reduce the filtration efficiency to below the limits set out.
- **WARNING:** If applicable: Community face coverings are not suitable for children under 3 years of age. It is recommended that children between 3 and 12 years are supervised while wearing the community face covering. A community face covering which hinders the user's ability to breathe when first put on is deemed unsuitable. It can take time to become comfortable with the community face covering.
- **WARNING:** This community face covering does not replace protective measures (regular hand-washing, physical separation, reduced contact with other people). It minimizes the projection of user's respiratory droplets saliva into the environment.
- **WARNING:** Do not use when participating in vigorous physical activity.
- **WARNING:** Stop using this product at the first signs of damage.
